- Discover a person's buying and decision making strategy (vital in sales)
- Learn how to elicit a person's convincer and reassurance strategy (important in relationships)
- Find out how we use strategies and how we can change the less than perfect ones
- Understand relationship strategies

Discovering the Power of Association with a Specific Stimulus - Anchoring :

- Learn the Four Vital Keys to Anchoring
- How to chain anchors to create change and transformation from a 'stuck' state like procrastination to a 'moving state' like motivation
- How to build personal resource anchors so you can change your state whenever you wish
- How to use anchors in relationships
- How to collapse anchors to rid ourselves of bad feelings

How to Resolve Internal Conflict :

- Learn easily the art of Parts Integration to eliminate internal conflict
- Create total alignment in your life

Reframing:

- Learn a variety of reframes that will allow you to change, to soften and shake up an objection or statement (excellent in sales)
- Understand the use of reframes when dealing with a phobia
- Discover the NLP Negotiation Model (vital for lawyers and mediators)

Time Line Therapy ® :

Time Line Therapy (aka Strategic Visioning) is an added bonus certification that you will receive as part of your NLP Practitioner Course. This added bonus will provide you with a total understanding and application of the therapeutic, educational and business implications of this profound process. It is the pre-eminent process of removing negative emotions and self limiting decisions known to humanity. Time Line Therapy will allow you to take control of your life, career, relationships and business in the following ways:

- How to wash away those internal blocks that prevent you from fulfilling your potential
- Eliminate negative emotions, self limiting beliefs and decisions
- Understand where you are going and to control it
- Keep you motivated
- Understand how you internally create your future and thus be able to affect it.
- Learn how to visualise your future clearly and thus make it more achievable and compelling
- Learn how to independently set your goals, install them in your future, and have certainty that you will achieve them

Hypnosis:

During your Fast-Track NLP Practitioners Course you will receive training in Hypnosis from Trainers who trained with the originals and the best. Particular focus will be placed on Ericksonian indirect permissive Hypnosis.
